

# Bronwyn Ward-Manson

DJM COMPANIES

"WELL-RESPECTED LEADER, THINKER AND PRACTITIONER IN THE FIELD OF EDUCATION."

## My Mantra:

1. Be strong, be bold, be fearless and have a go!
2. provide multiple opportunities to create amazing tomorrows

## Area of Expertise:

\* a member of a pioneer team in education in Australia which supported all levels of schooling to implement the Australian National Curriculum

\* developed, wrote and lead Australia wide assessment and reporting policy and professional learning strategies in assessing and reporting student achievement

\* constructed training & development seminars & workshops in assessment & self-assessment for Australian schools linking assessment, the teaching and learning cycle and curriculum standards.

\* designed, developed and constructed training & development on planning, & programming strategies and formats

Of note:

My area of expertise was in development of assessment, recording & reporting policies and practices that were based in educational research and focused on improving student learning.

I was instrumental in writing and leading Australia wide assessment and reporting training & development seminars and workshops; and writing teacher resource books and professional learning booklets to link assessment, the teaching and learning cycle and curriculum standards and expectations.

I continue to promote the need for reporting processes and practices to meet the needs of all students, parents and caregivers and have written numerous publications to show how this can be done.

I am always willing to move outside my comfort zone & think outside the box working in international Education programs including Australia / United Kingdom collaborative project investigating time tabling for a broad & balanced curriculum; team approaches for primary schools to collaboratively design their own learning pathways and assess and appraise students' achievements and performances

## Work Experience

## Testimonial

-Tracy Zilm , Australian Curriculum Assessment and Reporting Authority ACARA Sydney Australia 2017

" I had the honour of working with Bronwyn Ward-Manson as part of the South Australian Teaching and Learning Team which supported all levels of schooling to implement the Australian national curriculum known as Statements and Profiles.

Bronwyn was an integral part of a historic time in the Australian educational landscape and history, and her legacy in Australia remains in the hearts and minds of professionals and students alike. "
