"CONNECTING TO A KINDER, MORE
COMPASSIONATE AND SUSTAINABLE
WORLD"

Professional Statement

The main focus of my work in education has always been developing assessment, recording & reporting policies and practices that are student centred and focus on collecting and reporting authentic assessment information about students' achievements.

I worked extensively in student self-assessment knowing it to be the most empowering and inclusive tool to record and report authentic data about students' achievements.

I continue to promote the need for inclusive and authentic assessment and reporting processes and practices that meet the needs of all students.

Testimonial:

" I had the honour of working with Bronwyn Ward-Manson as part of the South Australian Teaching and Learning Team which supported all levels of schooling to implement the Australian national curriculum known as Statements and Profiles. Bronwyn was an integral part of a historic time in the Australian educational landscape and history, and her legacy in Australia remains in the hearts and minds of professionals and students alike.
